

## Commission Schedules June Public Meetings with Applicants for Water Storage Funding

The California Water Commission has scheduled meetings with Water Storage Investment Program (WSIP) applicants to discuss preliminary project component scores that were released today. Commission staff will also review information regarding Commission determinations (as required by WSIP regulations section 6011(c)).

Each WSIP applicant will have an individual 60-minute meeting with the technical review team. The meetings are open to the public and will take place at Room 500, Stanley Mosk Library and Courts Building, 914 Capitol Mall, Sacramento.

The meetings will be webcast live at:

The public may participate either in person or remotely by emailing questions about the Technical Review documents to [cwc@water.ca.gov](mailto:cwc@water.ca.gov) during the meeting.

During the facilitated meetings, technical reviewers will walk through the preliminary component scores for proposed projects, and take questions from applicants and the public. The meetings will help to identify any issues requiring clarification when the Commission meets in June to determine the final component scores.

The meeting schedule is as follows:
