

February 5, 2021

The Honorable Jim Patterson
Member, California State Assembly
State Capitol, Room 3132
Sacramento, CA 95814

**RE: Assembly Bill 431 – SUPPORT
As Introduced February 4, 2021**

Dear Assembly Member Patterson:

On behalf of the Rural County Representatives of California (RCRC), I am writing to express our support for your Assembly Bill 431, which extends the sunset for certain timber harvest plan (THP) exemptions for activities related to cutting or removing trees in compliance with defensible space laws. RCRC is an association of thirty-five rural California counties, and the RCRC Board of Directors is comprised of elected supervisors from each member county.

RCRC member counties contain much of California's forested lands, including more than 70 percent of the State's national forest lands. Many RCRC member counties' residents live in the State Responsibility Area (SRA) and must comply with the State's defensible space law in order to protect their homes in the event of wildfire. For those homeowners, many THP requirements are onerous and frankly unnecessary, as THP preparation is primarily intended for commercial timber harvest and large-scale tree removal projects. Requiring homeowners to comply with THP requirements for the purposes of defensible space practices is especially impractical in the wake of recent catastrophic wildfire events, and is a barrier to residents in the wildland urban interface being able to fully safeguard their homes. RCRC supports your AB 431, as it will extend the sunset to on THP exemptions to 2026, making it easier for homeowners in the SRA to remove overgrowth, fire-proof their homes and promote compliance with defensible space law.

For the above reasons, RCRC supports your AB 431. If you should have any questions, please do not hesitate to contact me at sheaton@rcrcnet.org or (916) 447-4806.

Sincerely,

STACI HEATON
Regulatory Affairs Advocate
