

## About the GO-Biz Renewable Energy Permitting Initiative

The GO-Biz Energy Unit is developing a toolkit of resources for local jurisdictions to use when permitting renewable energy projects across California. GO-Biz is gathering feedback from developers, community members and permitting agencies on the challenges of permitting large-scale renewable energy projects which include solar, onshore wind, and battery energy storage. Share your feedback by filling out our survey.

# WEBINAR

March 26, 2025

9:30 AM – 12:30 PM PST

## Join GO-Biz for a Discussion on BESS

As part of the GO-Biz permitting initiative, this webinar will bring together state and local permitting authorities as well as industry experts to discuss challenges, lessons learned, and best practices in permitting BESS projects.

### Webinar Registration:
