

Cal Fleet Advisor: Simplifying the Path to Zero-Emissions

[Cal Fleet Advisor](#) is a **free** technical assistance program that helps California fleets navigate zero-emission vehicle (ZEV) adoption. It is designed to give impartial guidance to both public and private fleets with medium- and heavy-duty vehicles to make cost-effective decisions about vehicles, infrastructure, and ZEV funding.

Fleet managers may be concerned about cost, infrastructure, and understanding zero-emission technologies. Cal Fleet Advisor addresses concerns by offering options and solutions such as lowering upfront purchase costs through incentive programs, guiding fleets through utility coordination, breaking down ZEV adoption processes into easy steps, and providing information on ZEVs and infrastructure solutions that are available today.

Cal Fleet Advisor is an independent source of information with a mission to help fleets find solutions that fit their operational and financial realities. The [Cal Fleet Advisor](#) program is supported by the state of California through California Climate Investments funds ensuring the guidance provided is unbiased and in the public interest.

Since it began, Cal Fleet Advisor has provided real-world, practical advice to more than 1,000 fleets in California by connecting fleets with trusted partners in the zero-emission space, simplifying infrastructure decisions, and helping agencies access approximately 150 ZEV models available through incentive programs.

What does Cal Fleet Advisor offer?

- **Customizes support:** Guidance tailored to fleet size, level of ZEV readiness, and duty cycles as indicated by your fleet.
- **Identifies potential funding sources:** Assistance identifying and stacking incentives like the [Clean Truck and Bus Voucher Incentive Project](#) (HVIP), [Innovative Small E-Fleet Pilot Program](#) (ISEF), and [others](#) to reduce upfront costs.

- **Provides an overview of ZEV options:** What options are available on the ZEV market now that can meet your operational needs.
- **Infrastructure guidance:** Helps estimate power needs, offers charging options, and coordinates with utilities.
- **Operational problem-solving:** Gives practical strategies to minimize downtime to make sure vehicles, charging, and drivers are making the most out of ZEV assets.

For school districts, Cal Fleet Advisor adds specialized planning support to ensure zero-emission school bus adoption is financially achievable and operationally seamless.

Start with a free consultation from a Cal Fleet Advisor expert. Once you contact Cal Fleet Advisor, you will be connected with a dedicated advisor that will provide 1 on 1 support and share information on vehicles, infrastructure, and funding that is of interest to you. Your Cal Fleet Advisor expert will help your organization overcome obstacles to integrating ZEVs into your fleet's operations. Do you have a question, but don't need a dedicated advisor? Cal Fleet Advisor is also available to help answer your ZEV questions.

Cal Fleet Advisor helps fleets navigate ZEV adoption with free, impartial, and expert support — while advancing California's clean-air objectives.
